

THEATRETECH INTERNATIONAL LTD

舞 台 設 計 國 際 有 限 公 司

Introduction

Theatretech International Ltd is an independent engineering design and project management company, renowned in providing a wide range of professional engineering services for the theatre and performing arts industry. Our facilities range from component design, employing AutoCAD drafting to management of projects involving complex and novel engineering challenges.

We have won the reputation in designing quality stage rigging and machinery installations for theatres and studios across the continents. With our engineers of 50 years experience, we are able to design, manufacture and supply a wide variety of stage machinery.

With unrivalled knowledge gathered from our extensive international experience, we are able to offer expertise advice with the design of stage engineering projects within new buildings or the re-design of existing buildings. We can take you through the whole project life cycle from design through to manufacture, assembly and final installation, including subsequent those in testing and commissioning.

Our design team is equipped with state of the art CAD workstations and has designed equipment which are now operating all over the world in opera houses, television studios and concert halls.

Customer satisfaction is one of our main concerns. Our philosophy of building close relationships with our customers has helped us to design products for their diverse needs - an attitude that has paid dividends not only to ourselves but also to customers.

Products

- Stage Elevator, Orchestra Lift, Compensator, Revolve Wagon, Side Wagon.
- Counterweight System, Power Flying System, Motorised Bar Hoist, Point Hoist, Up/Down Stage Bars, Handwinch System.
- House Curtain, Contour Curtain, Festoon Curtain, Decorative Drapes, Cyclorama, Safety Curtain.
- Variable Proscenium, Palmet, Legs, Curtain tracks, Stage weight, Stage Accessories.

Scope of Work

Design

- Provide comprehensive theatre design, including stage machinery, lighting, audio and interior.
- Planning and draft specification.
- Organise specialists and design team.

Fabrication

- Manufacture stage equipment.
- Coordinate suppliers.
- Quality assurance.

Installation

- Project management and site supervision.
- Equipment installation.
- Quality control.

Commissioning

- Testing and commissioning of equipment.
- Training of operators.
- Documentation and maintenance manuals.

Projects

PEOPLES REPUBLIC OF CHINA 中國

Concordia International School, Shanghai 上海協和國際學校

Hebei Art Centre 河北藝術中心

Great Shanghai Club 大上海會所

Beijing Poly Theatre 保利劇院

Shenzhen Grand Theatre 深圳大劇院
