

Curtain Track

Tracks are of all steel construction with fully welded support clips. All sections are interchangeable. Accurate alignment ensured by close fitting internal spigots, with outside joint plates, and ensures high load capacity over greater spans. Assembled by means of tapped holes in track clips for ease of site fitting. A full range of configurations is available.

Leaders and wheeled runners are fitted with high strength nylon wheels and are available in either plain or ball raced for exceptional heavy loads.

Different method of operation including walk along, hand winch and Electric winch with direct attachment to track or remote.
